

## TUTORIAL 14

- Create a folder called Lamp Assembly.
- Copy the folders Lamp Base and Lamp Head from the Q Drive and put these folders into the Lamp Assembly folder. Also copy the spacer part and place it in the Lamp Assembly folder

***(These folders contain the parts needed to create the Lamp Assembly)***

- Copy the lamp base created in Tutorial 11 and put this in the Lamp Base folder.

***(The task is to create a general assembly of the lamp from 2 subassemblies)***

*1 - Create a Lamp Base Assembly and save it in the Lamp Base Folder.*

***(Refer to the Lamp Base Assembly dwfx available on the Q drive)***

*2 – Create a General Lamp Assembly from the Lamp Base Assembly and the Lamp Head Assembly (Provided)*

***(Refer to the General Lamp Base Assembly dwfx available on the Q drive)***

*3 – Save the assembly and also save as Tutorial 14.dwfx for handing in*
